2021 - Present
Premier Magnesia l Gabbs, NV
Herreshoff Operator
- Improve production quality by identifying faulty or deteriorating equipment prior to a potentially disastrous scenario that causes large down time
- Took part in creating a cleaner environment to stray away from hazardous conditions by introducing a scheduled cleaning list for employees working in the area
- Take leadership over crew mates when Shift Lead is not present by taking responsibility over production, buildings & operators
- Main responsibilities include operation, maintenance & quality control over a Herreshoff Furnace, Ball Mill & silo's

2020 - 2021
Mission Pines | North Las Vegas, NV
Lead Cook
- Controlled the quality of food that each patient received based on their physical health and dietary conditions all while keeping the meal flavorful and aesthetically appeasing
- Maintained a kitchen of high sanitation standards and cleanliness by frequently cleaning counters, cookware, utensils & all equipment to fight against infections, diseases and keep patients healthy
- Main responsibilities included leading Cook Aid's in their duties and taking sole responsibility over preparing, cooking and serving meals to over 140 residents of the care center both with breakfast and lunch meals
